### BLACK LIVES MATTER

It was 2013 when the Black Lives Matter (BLM) movement was formed at the acquittal of George Zimmerman after the earlier shooting death of African-American teen Trayvon Martin. At first the BLM was a movement advocating for non-violent civil protests against incidents of police brutality and all racially motivated violence against African-American people.

In 2020 came the tragic Memorial Day death of George Floyd by a deranged police officer in Minnesota. Protests against police brutality towards black people were fueled in cities across America even though hundreds of thousands of police officers had nothing to do with Floyd's death. White people began to take a knee similar to what communist sympathizer Colin Kaepernick had done as they were condemned for their so-called racist history. Some woke white folks kneeled before Black Lives Matter activists and repeated vows to stop being racist while others shined the shoes and washed the feet of black people.

The liberal media pronounced sainthood on George Floyd and Democratic congressional lawmakers knelt in silent tribute to him. Unfortunately, the protests soon turned violent and it was hard to distinguish between peaceful protesters and mobs of rebellious rioters in America's cities. There was arson, rioting, looting, assaults, shootings, murders, desecration of historic monuments and attacks on private property not just in America but the riots even spread to Europe. The rioters alleged grievances of 'systemic racism' and rampant 'police brutality' was heralded by liberal politicians, media organizations, woke corporations, black leaders, college professors and anarchists as the situation deteriorated.

The rioters, many who were white, protested Western culture, nationalism, the Constitution and capitalism. Over 1,500 police officers were injured

(some died) by the rioters as of August 2020. Sympathetic woke politicians publicly stated that what was happening was only peaceful protests even though the financial damage of the chaos was in the billions of dollars.

This was in spite of America being the least racist, most diverse, multi-ethnic, tolerant and welcoming society on earth. America is the #1 destination for immigrants of every nationality, ethnicity, color and religion. Who tries to illegally sneak into China or Russia? If the U.S. is so racist, why not stay home?

Sadly America and Europe have entered an era of cultural Marxism where socialists have infiltrated the media, Hollywood, the courts and the halls of congress. America's colleges have become far-left institutions. Today's impressionable students are indoctrinated by radical Marxist and America-hating professors.

David Kupelian of WorldNetDaily wrote: "Higher education has been fundamentally transforming many young people into an army of angry, arrogant, historically ignorant, morally confused, America-hating foot-soldiers and now they have been called to active duty."

Unfortunately, the BLM movement was hijacked by radical Marxist and far-left anarchists including ANTIFA. This is a political movement that advocates for the assassination of police officers, taking private property from white land owners, and starting a revolution designed to overthrow the freedom-loving culture of the United States. Both the name ANTIFA and the logo with two flags representing anarchism and communism are derived from the German Antifa movement." (Wikipedia / Antifa - United States). President Trump labeled ANTIFA a "domestic terror group."

City after city across America saw statues of Christopher Columbus, George Washington, Thomas Jefferson, Abraham Lincoln, etc. defaced or toppled by angry mobs. In some areas of America 'Columbus Day' has been replaced with 'Indigenous Peoples Day' in

recognition of the so-called pain and terror caused by Columbus and the white European explorers.

Patriotic Americans began to realize that the violent protests are not about George Floyd or combating systemic racism. It is to dismantle America's constitutional government, vital institutions, eliminate free-market capitalism, destroy Christianity, and institute a totalitarian socialist system.

The 'divide and conquer' concept has been tested for centuries on civilizations across the globe. It is being used by the global 'powers that be' to divide America's citizens so they will not unite and fight to preserve America's Constitution, freedom of speech, right to bear arms, and freedom of worship. In other words by means of the controlled press radical organizations and liberal politicians create division among various groups of people so that they will not join together to fight the common anti-American enemy. "United We Stand – Divided We Fall!"

### TRAINED MARXISTS

All three co-founders of Black Lives Matter proudly admit that they are lesbian Marxists. Co-founder Patrisse Cullors said on video, "We actually do have an ideological frame. Myself and Alicia are particularly trained organizers – we are trained Marxists." Patrisse was mentored by the former domestic communist terrorist Eric Mann. Eric was an associate of Bill Ayers the former head of the Weather Underground. The militant-left terrorist group took credit for dozens of bombings across the U.S. during the 1970s including the U.S. Capitol, the Pentagon, a New York City police station, and the California Attorney General's office.

Former New York City Mayor Rudy Giuliani on August 7, 2020 showed the connection of convicted terrorist and former Weather Underground member, Susan Rosenberg to the Black Lives Matter's fundraising arm. Giuliani warned America that the organizers behind the group "are killers" who "hate white people!" Rosenberg sat on the board of directors of Thousand Currents, which is a fundraising arm for the Black Lives Matter movement.

Stanford professor Doug McAdam said he attended the last above-ground meeting of the Weather Underground where everyone was "sitting in a room" together and the question that was debated was, "Was it or was it not the duty of every good revolutionary to kill all newborn white babies?" At that point it seemed like a relevant framing of an issue, the logic being,

"Hey look, through no fault of their own these white kids were going to grow up to be part of an oppressive racial establishment internationally and so really your duty is to kill newborn white babies." (Chris Menahan – Information Liberation – 8/7/2020.)

New York's BLM leader Hawk Newsome openly promised a violent revolution, telling Fox News Martha MacCallum, "If this country doesn't give us what we want then we will burn down the system and replace it."

President Trump responded by tweeting, "This is Treason, Sedition, Insurrection!"

A crowd of rioters marching in Portland Oregon shouted in unison on 8/4/2020, "Every city, every town, burn the precinct to the ground."

### WOE TO THE WHITE-RACE!

As the riots began to spread across America and Europe the anarchists began to focus their attack more and more on the 'white-race' which they blamed for the world's ills!

Yusra Khogali, a co-founder of the Black Lives Matter movement in Toronto Canada wrote in a Facebook post in 2016 that "white people are a genetic defect of blackness," that "whiteness is not humxness (sic)," and "In fact, white skin is sub-humxn (sic)." She further said, the Gateway Pundit blog reported, white people "are recessive genetic defects – this is factual...White ppl [people] need white supremacy" she blogged, "as a mechanism to protect their survival as a people because all they can do is produce themselves. Black ppl [people] simply through their dominant genes can literally wipe out the 'white-race' if we had the power to." Khogali asserted that white people have a higher concentration of enzyme inhibitors which suppresses melanin production. She added that melanin is important for a number of things such as strong bones, intelligence, vision and hearing. In a separate post Khogali tweeted, "May Allah give me the strength to not cuss/kill these men and white folks out here today."

Billionaire media mogul and far-left Oprah Winfrey declared in an episode of her eponymous series in August 2020, 'The Oprah Conversation' that "whiteness" and "white privilege" afford unspecified benefits to white people in the caste system of America. Oprah said: "There are white people who are not as powerful as the system of white people – the caste system that's been put in place – but they still, no matter where they are on the rung or the ladder of success, they still have their whiteness...That's what the term "white privilege" is. It means that whiteness still gives you an advantage, no matter."

It is ironic that oppressed Oprah conveniently failed to mention that most of her multi-millions of dollars have been made off the backs of the so-called privileged white people. How's that for oppression?

A protestor in London summed up the BLM's view of America's Declaration of Independence as a product of "white capitalist slave owners" and therefore was used to oppress black people.

## DEFUND THE POLICE

Echoing the "five-year plan" model of the Cold War era, the Philadelphia arm of BLM called for the "complete abolition" of the police department in five years along with the elimination of America's military bases abroad!

Several years ago protestors marching in New York City and St. Paul Minnesota chanted "pigs in a blanket, fry 'em like bacon." Protestors marching in Baton Rouge Louisiana were heard yelling "What do we want? Dead cops - When do we want it? Now!" BLM and ANTIFA protestors chanted at a march in Seattle August 2020, "Who do we protect? Black criminals!" In mid August 2020 rioters in Portland chanted "Kill a Cop, Save a Life."

Some sought to counter the BLM movement by saying "all lives matter" and "blue lives matter" (the police colors) but these terms were quickly branded racist by the fake media. According to the so-called 'woke' crowd, only Black Lives Matter.

Black Lives Matter activist and representative YahNe Ndgo said, "We don't want to see any police in our community." (BLM leader proposes 5-year plan to totally eliminate police – WND 7/8/2020).

Students at several universities in the Chicago area called on their schools to end relationships with the police department. In one social media post the student activists described their local police force as a "white supremacist cult." (Breitbart – August 6, 2020).

The Minneapolis Police Department informed residents in an email on August 1, 2020 concerning robbers that they should "Be prepared to give up your cell phone and purse/wallet" and "do as they say," the advisory stated.

Google Translate, the left-wing tech giant's translation app, listed "a police officer" as the primary definition of "demon." Google later removed the post after they were grilled about the definition.

It is no secret that domestic terror groups like ANTIFA and BLM are funded in part by millions of dollars from George Soros 'Open Society' many

splinter groups (The Tides Foundation, etc.). Soros is a Hungarian-American billionaire investor and philanthropist. He is known as "The Man Who Broke the Bank of England." (George Soros - Wikipedia).

The Marxist led rebellion in the U.S. against so-called 'white supremacy' and 'white privilege' even spread to the statues and pictures of Jesus. Black Lives Matter activist Shaun King (a former surrogate on Vermont socialist Senator Bernie Sanders's 2020 presidential campaign and co-founder of Real Justice PAC) called for the removal of statues, murals, and stained glass windows that depict Jesus as a "White European," which he claimed "are a form of white supremacy."

Rebellious protestors in Portland Oregon burned Bibles and American flags in late July 2020! Think about it – what does burning Bibles have to do with protesting against police brutality? It confirms that the riots are simply a means to totally dismantle Western Culture and replace it with a dictatorial, freedom-robbing, socialist society! The global communists could not be happier.

Many remind us that 'God is love' and that we must love the rebellious anarchists who are seeking to destroy America's Constitution and Bill of Rights. I hate to burst their sympathetic bubble but the same Bible that says 'God is love' also tells of some folks that God hates!

The Lord examines the righteous, but the wicked, those who love violence, **he hates with a passion.**

*Psalm 11:5*

Even the U.S. flag is being stomped on and burned by anarchists across America for being a so-called symbol of white supremacy. The lunatic left complains that the flag celebrates an era in U.S. history when slavery was legal and commonplace. However, they conveniently ignore the fact that historian R. Halliburton Jr. showed in 1975 that free black people have owned slaves "in each of the thirteen original states and later in every state that countenanced slavery," since at least 1654! This is according to still existing court documents. (News with Views by Mrs. Devvy Kidd, June 8, 2020.)

Anthony Johnson (a black tobacco farmer) was the first legal slave owner in American history. He owned a 250-acre farm in Virginia during the 1650s. He was the first to have his lifetime ownership of a servant legally sanctioned by a court! The U.S. census of 1830 lists 3,775 free Negroes who owned a total of 12,760 slaves.

Black Lives Matter's own mission statement says, "We disrupt the Western-prescribed nuclear family structure requirement by supporting each other as extended families and villages that collectively care for

one another, especially our children, to the degree that mothers, parents, and children are comfortable.”

What is meant by “we disrupt the Western-prescribed nuclear family structure requirement?” According to the Oxford English Dictionary the term dates back to 1925 and actually originates from nucleus, which is originally Latin and means ‘core.’ A nuclear family is a family where father, mother, and their children live in one household and stick together like objects around a nucleus. In other words BLM vows to destroy the nuclear family made up of father, mother, and children!

British politician and Brexit Party leader Nigel Farage said in 2020 that the people behind Black Lives Matter have an agenda that “would make Lenin blush.” He warned that the movement does not want racial justice but seeks to tear down Western civilization! He said that the movement is “about all-out Marxism. It’s about the destruction of capitalism. It’s about getting rid of the nation-state as we know it!”

U.S. Attorney General William Barr said on “Life, Liberty & Levin” on August 9, 2020 concerning the ongoing Black Lives Matter riots rippling through U.S. cities that the organization – which has been characterized by the media as a fed-up activist group – is comprised of “Bolsheviks” with a focus on “some form of socialism, communism.”

Matt Bracken (AmericanPartisan.org) writes that Antifa and BLM are simply cover names for the real organization behind all this: The “Revolutionary Communist Party of the USA,” which has long planned a guerrilla warfare urban uprising in an attempt to overthrow the United States of America!

## THE BIBLE PREDICTS A RACE WAR

And as he (Jesus) sat upon the mount of Olives,  
the disciples came unto him privately saying...  
what shall be the sign of thy coming,  
and of the end of the world (age)?  
*Matthew 24:3-4*

Jesus was asked what signs are people to look for to determine when He was about to return. Jesus said He did not know the day or the hour (Matt. 24:36) but He did command His followers in Matthew 24:33 to **know** when the time is very close.

“So you also, when you see all these things (the signs given in Matthew 24), **know** (“know for certain” – *Amplified Bible*) that it is near – at the doors!”

Jesus gave a number of signs that will occur near the end of this present age (Matt. 24:4-14). Each of these signs are now being fulfilled, or on the verge of fulfillment, but one in particular helps explain what is going on in America at the present time.

“For nation (Greek *ethnos*) will rise against nation (*ethnos*)...” (Matt. 24:7).

The Greek word *ethnos* is akin to our English word ‘ethnic.’ It refers to groups of people who have certain racial, cultural, and religious traits in common.

In other words, Jesus informed us that **racial strife** will erupt near the end of this age! Hello Europe and America - Are we there yet?

Newt Gingrich, the former speaker of the house said, “We’re in a clear-cut cultural civil war.”

A survey by Rasmussen Reports in June 2020 found that 34 percent of likely U.S. voters think a second Civil War is coming in the next five years!

Today both Europe and America are being overrun with illegal foreigners of a different religion than Christianity. China remains Chinese, Nigeria remains Nigerian and India remains Indian but Europe and America are now being transformed into multiracial nations and foreigners are changing our demographics.

These illegals have never taken any vows to protect, obey, and defend America’s Constitution and honor America’s laws as have the immigrants from other nations that have legally entered America by a lawful process.

God warned that when a nation begins to reject His laws as America is now doing, that “the stranger (foreigners - *NIV*) that is within thee shall get up above thee very high; and thou shalt come down very low.” (Deut. 28:43). Are we there yet?

## REPENT AMERICA!

A person’s racial background, regardless of skin color, will not grant you eternal life! That comes only by faith, repentance, and the acceptance of Jesus Christ as Lord and Savior! Salvation is a free gift and it is offered to “whosoever will” accept it whether red, yellow, black or white! Truly all lives matter in God’s salvation plan!

“That if you confess with your mouth the Lord Jesus and believe in your heart that God has raised Him from the dead, you will be saved. For with the heart one believes unto righteousness, and with the mouth confession is made unto salvation.” (Romans 10:9-10).

“For God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.” (John 3:16).

Even so, come Lord Jesus!
